#### Measuring Margate

We invite you to help us 'measure' Margate. Measuring Margate is a year long arts project that directly engages with the ideas behind the work of artist Jenny Wiener and explores and questions systems for measuring, mapping and treasure maps.

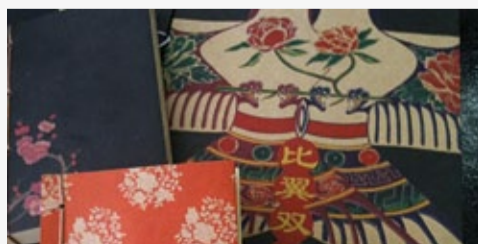

A system for measuring can include length, time, distance etc. or more creatively, how many colours can be counted, how many cracks in the pavement, the number of cars that were passed. In fact the systems used for measuring will only be limited by imagination.

Why not do your own measurement of Margate? To add your measurement and see what others have done, go to our website. [www.measuringmargate.co.uk](http://www.measuringmargate.co.uk)  
This project is supported by Kent County Council.
